Profile

Odoo Developer with hands-on experience in developing and customizing Odoo modules. Proficient in Python, XML, and PostgreSQL with a solid understanding of Odoo's ORM and business workflows. Skilled in building and enhancing modules to meet client requirements. Quick learner with a problem-solving mindset, eager to contribute to efficient and scalable ERP solutions.

Professional Experience

Cloudinfosoft

Odoo Developer Intern Aug - Nov |2024

- Acquired practical knowledge of Odoo architecture, ORM, and core module customization.
- Supported development tasks using Python and XML under senior supervision.
- Eager to grow by engaging in real-time ERP projects and exploring emerging Odoo features.

4Devnet

Odoo Developer Jan 2025 - Jan 2026

- Developed and customized Odoo modules across various versions, focusing on Sales, Project, HR, Recruitment, Purchase and CRM.
- Worked with Python and XML to implement business logic and interface elements according to client requirements.
- Created custom reports and views, and modified existing workflows using Odoo ORM and PostgreSQL
- Integrated third-party APIs and external tools to extend Odoo functionality as per client requirements.

Skills

- Odoo (v16, v17, v18)
- Python
- XML
- PostgreSQL
- GIT

Projects

Exam Center Project – Eduquity

- Building and customizing an Odoo-based exam center management system for Eduquity, managing exam scheduling, center allocation, candidate registration, and result delivery.
- Integrated features for invigilator assignment, attendance tracking, and exam center logistics.
- Implemented real-time reporting dashboards, notifications to stakeholders, and data validations to ensure exam integrity.
- Worked closely with the functional team to understand requirements and ensure smooth implementation of exam workflows.

IndiaMART Lead Integration

- Developed a custom Odoo module to automatically fetch and manage leads from IndiaMART using their API.
- Parsed and stored incoming lead data into Odoo CRM in real-time, reducing manual data entry.
- Ensured proper error handling, authentication, and data mapping for smooth API integration.

GoShippo Integration

- Integrated GoShippo API with Odoo to automate shipping operations, including real-time rate fetching, shipment tracking, manifest generation, and order cancellation.
- Implemented API endpoints using Python and JSON to ensure smooth data exchange between Odoo and GoShippo.
- Enhanced logistics workflow in Odoo by streamlining carrier selection, shipping label creation, and tracking updates within the system.
